

FOOD SAFETY POLICY STATEMENT

The company's senior management defines its policy, objectives and commitment to quality and safety of the products produced and the quality of the services provided.

To this end, the Senior Management of the company CHLOE ROLAND DIMITRIADI KAI SIA LP :

- To ensure that its safety policy and the objectives of the Food Safety Management Systems are established and are consistent with the strategic orientation and operational framework of the Organization
- Ensure that the requirements of the FSMS are integrated into the Agency's processes and provide the framework for the definition and review of the FSMS objectives
- Ensure the availability of the necessary resources
- Ensure that the FSM is assessed and kept up to date in order to achieve the intended results
- meet applicable food safety requirements, including legislative/regulatory requirements and mutually agreed safety-related requirements with the customer
- Communicate the importance of effective food safety management and compliance with the requirements of the FSMS, applicable regulatory requirements and mutually agreed requirements with the customer related to food safety to all stakeholders
- Protect products from deliberate spoilage, deliberate contamination or fraud by developing a Food Fraud & Food Defense plan
- To guide and support staff to contribute to the effectiveness of the FSMS
- Address the need to ensure professional competence related to food safety
- To support staff to exercise leadership in their areas of responsibility
- Communicate the policy and ensure that it is understood and implemented within the organization
- To promote continuous improvement
- Address internal & external communication issues
- To promote the process and risk approach

The company's management recognizes the necessity of establishing and implementing a Food Safety Management System, where risks are identified, assessed and controlled and control measures are identified and categorized in order to ensure the safety of the products produced and harmonized with the requirements of ISO 22000:2018. The FSMS applies to all products produced and marketed by the company. This system will be continuously improved, through reviews & updates & performance evaluation , to always meet the ever increasing expectations of customers as well as market and legislative requirements in accordance with new scientific data.

The objectives around which there is continuous and systematic effort in the company are always relevant to:

- Customer (customer satisfaction, customer complaints)
- Product - service (failures)
- Supplies (delivery, non-conforming products)
- Human resources
- Resources

and are in all cases policy compliant, measurable and take into account applicable legislation.

The above objectives in conjunction with management's overall food safety policy are monitored, verified and updated annually.

In order to achieve this objective, the company has adopted a FSMS system based on ISO 22000:2018 , for the following activities:

-production and bottling of extra virgin and virgin olive oil and condiments

The above quality policy is known and applied by all the company's personnel.
